

DIRECTOR OF CENTRAL INTELLIGENCE

Science and Technology Advisory Panel

11 DEC 1981

RADM John L. Butts, USN
Commander
Naval Intelligence Command
Pentagon
Washington, DC 20301

Dear Admiral Butts,

On behalf of the Director and each member of his S&T Advisory Panel, I would like to express our genuine pleasure in having you join us for lunch. The discussion which you lead was extremely interesting and I was personally gratified that we see eye-to-eye on so many important S&T issues. After the meeting, several of the Panel members asked me to express their appreciation to you for sharing your unique perspective on the Soviet Navy with us. I know that I speak for the entire Panel when I say that your visit provided one of the most enjoyable and professionally rewarding meetings we have enjoyed to date.

I have attached copies of several recent STAP positions and look forward to joining [redacted] STAP's SAFE expert, in meeting with you to discuss your intelligence data processing requirements. I hope that you will continue to consider STAP an objective S&T asset upon which you may draw as you see appropriate. I look forward to a long association.

STAT

Sincerely

[redacted signature box]
